**Date:** Friday, May 26, 2017 6:47:58 AM

---

There is NO Safe level of glyphosate!!! It is damaging our children and every human on the planet. This is ridiculous that we have to fight to get this carcinogen out of our food!!! Get a conscience and fight with us!!!!!!

Sincerely,  
Dr. Kristine Hicks

"If we hope to create a non-violent world where respect and kindness replace fear and hatred, we must begin with how we treat each other at the beginning of life, birth. For that is where our deepest patterns are set. From these roots grow fear and alienation or love and trust."

-Suzanne Arms
